

Always Better®

Water Resistant

Lightweight

Fast Adjustment

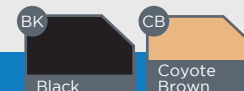

The Hunting Sling is simple, fully adjustable and ready to attach to standard sling swivel studs. The sling is made from the same military-grade Invista solution-dyed CORDURA® webbing used in all Blue Force Gear slings, which is color fast to reduce fading and durable to withstand the harshest environments.

The Hunting Sling is completely captive as there are no parts to lose. Simply unscrew the knurled bolt on the Heavy Duty Swivels and attach the sling into the swivel stud. Screw the bolt back in tightly and the sling is ready to go. The nylon adjuster can be used to shorten and lengthen the sling to either securely carry a long gun and quickly shoulder and fire without removing the sling. For the best results, the adjuster should be installed so it tightens when pulled towards the buttstock.

Weight	80g
Part #	HS-125-DS-XX
Size	1.25" sling webbing
Features	
26 inches while fully closed	46 inches while fully open
Materials
