

Quality Control Technician

Blue Force Gear is proud to design and manufacture the world's lightest and most cutting edge military equipment – all made here in the USA! We have a dedicated team committed to the mission of our nation's armed service, law enforcement, prepared citizen, and sporting enthusiast. Also important to our company culture is the spirit of "Always Better" – a quest for constant improvement both in the workplace and in your personal lives. In order to enhance our long term growth, we are looking for an experienced Quality Control Technician!

Responsibilities:

- Ensures that all quality procedures for the production of rifle slings are followed during each phase of production
- Develops and conducts a variety of tests on inbound materials from vendors as well as on outbound finished products
- Performs tests at various stages of production to ensure that customer specifications are met and all quality standards are followed
- Creates and maintains documentation for quality issues and notes corrective actions taken
- Inspects, measures, weighs, and catalogs slings to ensure consistent production quality
- Implements and improves quality control operating procedures
- Educates production team on quality control issues
- Recommends improvements to product quality
- Creates process checklists and coordinates quality inspections
- Will perform other duties, as assigned

Education & Experience:

- Minimum of two (2) years' work experience in quality control or related field within a manufacturing environment with emphasis in textiles or tactical gear

Skills:

- Must have knowledge of quality control standards
- Strong attention to detail
- Strong analytical and critical thinking skills
- Proficient in Microsoft Office
- Excellent written and verbal communication skills
- Quality control certification, preferred
- Knowledge of tactical gear preferred

Blue Force Gear is an Equal Opportunity Employer and promotes Drug Free Workplace
