

Always Better®

Water Resistant

Lightweight

The Bungee Cord 6 Pack is a set of individual 20" bungee cords with removable unidirectional pull tabs. They're able to replace the cords of the M4 or Pistol Mag NOW! Pouches or attach to a variety of other pieces or pouches for additional retention. Perfect for the high stakes user who requires no fail retention to secure rifle mags, pistol mags, tac lights, illuminators, or any other miscellaneous gear in the case of jump, helo, dive, overland, or take a digger down a ravine while walking under NVG's type operations.

The pull tabs are specifically designed arrow shaped heads that can lay flat forward or rear-facing against stowed magazines. The arrow shape allows for reliable and positive indexing with or without gloves for rapid removal or security. American made out of premium materials, the Bungee Cord 6 Pack is excellent for additional retention in order to ensure you're never "that guy" who arrives at the objective sans pieces of critical equipment.
