LIGHTEN THE LOAD®

CHLK BELT | NEXT GENERATION OF BATTLE BELTS

The CHLK™ Belt Kit is a revolutionary approach to the modern battle belt, able to act as a low profile pistol belt or a full capacity MOLLE belt kit. CHLK, short for “Combat Helo Load Kit”, was designed and built around the needs of helicopter assaulters. They needed a super low profile belt kit with fewer snag liabilities that was load rated to provide clip-in tethering to the aircraft. The CHLK Belt Kit also features an improved glove hanger, which is made from a custom-molded polymer for greater durability.

CHLK BELT INSTALLATION AND USE
