

SINGLE PISTOL DAPPER[™] POUCH

The Ten-Speed® Single Pistol Dapper™ combines the legendary Ten-Speed performance with the flexibility of the Dapper system to provide the lightest, low profile way to carry spare magazines or other similar sized items. A military-grade elastic slot holds most double or single stack pistol magazines, lights, multitools, or other similar-sized items secure and in place. The Ten-Speed® pockets lie flat when not in use for reduced bulk and greater storage flexibility.
