MOLLE
Compatible

The Mag NOW! M4 Pouch - 6 Mags securely holds M4 magazines in mil-grade elastic pouches. Each pouch is its own compartment, mimicking three double-stacked magazine pouches on one single Helium Whisper MOLLE compatible backer. Integral adjustable bungee straps provide an extra level of "tumble retention" for magazines and molded rubber pull tabs make the bungee straps easy to operate with wet or gloved hands. The outer face of Mag NOW! M4 Pouches feature MOLLEminus fields for stacking additional MOLLE pouches. The heavy-duty elastic construction allows for items of similar size to be stowed in the mag pouches providing an optimal multi-use pouch for a variety of needs.

Weight	181g
Part #	HW-AFD-M4-6-MC
