The Micro Trauma Kit NOW! - PLUS+ is a medic kit that is more than just an expanded version of the popular MTKN. In order to replace the proprietary mini trauma dressing and compact chest seals of the MTKN with full size components, the BFG design team reshaped the outer pouch and inner shingle to offer the most streamlined package possible. The PLUS+ medical pouch comes in ESSENTIALS, PRO and ADVANCED fill levels. The MTKN!-PLUS+ is available with a MOLLE med kit mount.

The most popular BFG MED fill level in service with police, military and medical providers worldwide. The ADVANCED kit is designed to treat traumatic injuries as per the MARCH protocol for those providers trained in TCCC concepts. \*Proof of medical authorization required for purchase due to restricted medical contents\*
