Fast Adjustment

## SLING ADJUSTMENT

An upgrade to the standard issue M4 to add a QD Sling: the Army Sling Kit, featuring the Enhanced Bravo Stock, Rail Mounted Push Button Socket, and Vickers Combat Applications Sling (VCAS) with Push Buttons. This comprehensive kit enhances stability, precision, and versatility, ensuring superior performance in the field. With robust components designed for optimal functionality and easy installation, the Army Sling Kit is the ultimate solution for adding a high-quality sling to your M4.
