

Always Better®

Lightweight

Heavy Duty

The first Burnsed Socket™ was designed in 2005 as a key piece of hardware for the patented SOC-C™ Sling which transitions between a 1, 2 and 3 point sling. Now updated as a standalone part, the Burnsed Socket allows slings, including the Vickers Combat Applications Sling™, that do not have sewn in parts to be transformed from a 1 point sling to a 2 point push button sling in seconds.

Weight	13g
Part #	P-PBF-XX
Size	0.75" x 1.5" x 0.5"
Features	
1 to 2 point sling when paired with other parts (sold separately)	Sold in singles
Materials	
Machined aluminum	Hard coat anodized
