PN: P-MED-CATH-1

The Micro Trauma Kit NOW!®, or Micro TKN®, is our smallest version of the Trauma Kit NOW!® yet. The most popular MTKN configuration in service with police, military and medical providers worldwide. The ADVANCED kit is designed to treat traumatic injuries as per the MARCH protocol for those providers trained in TCCC concepts. The lightest and smallest full treatment trauma kit available. *Proof of medical authorization required for purchase due to restricted medical contents*

The Micro TKN® is designed to be worn horizontally with minimal bulk - perfect for everyday carry, for law enforcement professionals, prepared citizens, or in low-profile mission sets. The inner carrier can be deployed with one hand or one finger from either the left or right side by pulling the BLIP featured pull tabs. The Micro TKN® consists of two main components - the outer MOLLE or Belt mounted pouch utilizing the Ten-Speed® technology, and a removable insert that keeps supplies organized.

Weight	261g
