The Micro Trauma Kit NOW!®, or Micro TKN®, is our smallest version of the Trauma Kit NOW!® yet. It was designed to hold essential lifesaving gear with minimal size in mind. At home, at work, on the range or in the woods the ESSENTIALS kit has just what you need to address the #1 cause of traumatic death - BLEEDING. The Micro TKN® is designed to be worn horizontally with minimal bulk - perfect for everyday carry, for law enforcement professionals, prepared citizens, or in low-profile mission sets. The inner carrier can be deployed with one hand or one finger from either the left or right side by pulling the BLIP featured pull tabs. The Micro TKN® consists of two main components - the outer MOLLE or Belt mounted pouch utilizing the Ten-Speed® technology, and a removable insert that keeps medical supplies organized.
