

ULOOP™
UWL-UL1

FEATURES

- Fits HK, AK, SIG, SCAR or other eyelets
- Can be mounted through holes in handguards and through KeyMod systems
- 1" or 1.25" Sling attachment size
- Multiple colors

The ULoop™ brings a level of versatility that is unmatched by any other sling hardware. Code named the “Uber Loop” it is a quick-detach version of our popular Universal Wire Loop, offering even faster and easier installation, especially on smaller eyelets found on HK, SIG and FN weapons. The ULoop can be installed almost anywhere - through eyelets, holes in railed handguards, and on KeyMod rails. There’s no need to have multiple sling attachments. The ULoop replaces all hooks, clips and connections.

The ULoop can be installed in seconds and does not need to be removed from the sling. To release the wire, push the wire loop down towards the body unseating it from the body. Then pull the wire out of the body and install / remove from the weapon loop, eyelet, or slot.

MATERIALS

- Nylon coated aircraft-grade stainless steel wire
- Mil spec ball shank ends crimped to the wire, not the nylon coating
- Glass reinforced DuPont Zytel® Nylon body
