BELTS OR MOLLE

The MTKN! - Nano 02 is slightly larger than the original Nano but with the same capacity of the Micro Trauma Kit NOW! It features rapid single-hand access by simply pulling the BLIP pull tab to remove the insert and access the medical supplies. Carry it in conjunction with a tourniquet and you can address the number one cause of trauma related death - bleeding.

Compatible with NANO medical supply refill kits available separately or custom filled depending on department requirements.
