HOW DRYOUT® WORKS

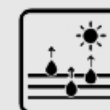

PULLS

Actively pulls moisture from gear.

TRAPS

Traps moisture to help prevent damage.

RELEASES

Releases moisture in heat or airflow.

DRYOUT is a patented, electricity-free technology that protects and rescues electronics and other gear from damage after exposure to moisture – preventing rust, corrosion, shorted circuits, and lens fog.

Weight 4oz (114 g)

Part # P-DRYOUT-01-XX DRYOUT®

Size 3 x 4.5 x 7 inch

Features

Designed for repeated recharge and reuse

Moisture Damage Protection

Asset Protection

Materials

DRYOUT® Patented Material Sandwich

2 oz Ripstop Nylon

TEX 70 Bonded Nylon Thread

ITW Fastex Side-Release Buckle
