

## NEW PRODUCT OVERVIEW

### **BLUE FORCE GEAR® MICRO TRAUMA KIT NOW!™**

The [Blue Force Gear](#) Micro Trauma Kit Now!™, also known as the Micro TKN™, is the smallest version of the Trauma Kit Now!™ available on the market. This pack, which is available for purchase filled or unfilled, is designed to hold essential lifesaving gear in a small easy-to-carry pack that takes up minimal space. The supplies inside of the Filled Micro TKN™ include:

- Quick clot combat gauze
- HyFin vent chest seal (2 Seals included)
- Clear medical trauma bandage 4" flat pack
- Decompression needle
- Six 2in. x 9in. Frog Tape
- Size 28 Nasopharyngeal Airway
- One pair of heavy-duty medical gloves in tan

The Micro TKN™ is constructed to be worn horizontally and is less bulky than the typical pouch, which makes it ideal for everyday carry by law enforcement professionals, low-profile mission sets and prepared civilians. The inner carrier can be easily deployed with one finger or one hand from either the left or right side by pulling the BLIP featured pull-tabs.

“Whether downrange, in the hunting field, or in everyday life – Blue Force Gear believes in a mindset of readiness,” said Tom Kaleta, Director of Marketing. “Hunters carry seemingly every device, scent cover, and tool imaginable, but few I’ve ever encountered carry a trauma kit that contains more than a few bandages. This kit takes up very little room, weighs virtually nothing and contains the tools to treat the three most common battlefield injuries. Why would every hunter or shooter not carry a Micro TKN™?”

The Micro TKN™ has two main components: the outer MOLLE or belt-mounted pouch using the Ten-Speed technology; and a removable insert to keep medical supplies organized.

Find technical specs and see a demonstration of *Blue Force Gear's* new Micro Trauma Kit Now!<sup>™</sup> and other innovative products in booth 31209 at SHOT Show in Las Vegas from Jan. 17–20. Personal interviews with company leaders will be available to media.

**About *Blue Force Gear*:**

[\*Blue Force Gear\*](#) designs the best weapon slings and leads the lightweight equipment revolution with its [Ten-Speed<sup>®</sup> multi-use pouches](#). They also reinvented MOLLE to be the world's lightest with their [Helium Whisper<sup>®</sup> pouch](#) attachment system and high-performance laminate, [ULTRAcamp<sup>™</sup>](#). Unrivaled innovation and attention to detail set *Blue Force Gear* apart from others in the tactical equipment industry.
