

Blue Force Gear Launches PLATEminus

SAN DIEGO, CA—April 24, 2013—Blue Force Gear® launches PLATEminus™ at the ADS Warrior Expo West Show at the San Diego Convention Center. PLATEminus features Blue Force Gear's Patent pending MOLLEminus™ technology: MOLLE minus the weight, MOLLE minus the bulk, MOLLE minus the complexity.

PLATEminus is Blue Force Gear's latest addition to their MOLLEminus product line. Available in sizes medium and large, PLATEminus is designed to fit any SAPI/ESAPI style armor plates, with or without plate backers. It has an inner plate pocket constructed of color matched CORDURA® and Tweave to provide camouflage and signature reduction. PLATEminus utilizes MOLLEminus technology with voids and slots laser cut out of one piece of ULTRAcamp™ laminate instead of layers of sewn nylon and webbing as the MOLLE platform.

“We designed PLATEminus with simplicity in mind,” said John Felushko, Blue Force Gear's Product Line Manager. “PLATEminus is simple to put on with single pull forward side straps, simple to customize due to full MOLLE compatibility and simple to size – just buy your SAPI/ESAPI plate size.”

The MOLLEminus design provides the thinnest, strongest, lightest modular load carriage of individual combat equipment: half the thickness of a dime, over 4 times as abrasion resistant as air textured nylon and formed from a single piece of Blue Force Gear's proprietary ULTRAcamp™ laminate. PLATEminus is compatible with all legacy issue MOLLE pouches and for the ultimate lightweight plate carrier combine PLATEminus with pouches featuring Blue Force Gear's revolutionary Helium Whisper™ attachment system.

About ULTRAcamp

Blue Force Gear's proprietary high performance laminate, ULTRAcamp, far exceeds the military standard air textured nylon in tear and abrasion resistance.

About Blue Force Gear, Inc.

[Blue Force Gear](#)® designs the best weapon slings and leads the lightweight equipment revolution with its [Ten-Speed](#)™ multi-use pouches. They also reinvented MOLLE to be the world's lightest with their revolutionary [MOLLEminus](#)™ technology and [Helium Whisper](#)™ pouch attachment system. Unrivaled innovation and attention to detail set Blue Force Gear apart from others in the tactical equipment industry.
